

## Year In Review

(Tell about your 4-H Activities this year using one of the following formats: story, date-line, photographs, diary or journal).

Dear Diary,

This year in 4-H was very fun, I had many new experiences, and it was a very educational time. I did many different activities and projects in my 4-H group. I participated in a play that was called Sharp Shooter. I was the main character and her name was Annie Oakley. I went to 4-H meetings. After every meeting, we would have a tour of a local farm or do a different activity which made the meetings very fun. My 4-H group even had a meeting at my family's farm (Coulee View Family Farm). I was really cool that I got to show all

← ← CONTINUED ON THE BACK → →

the people in my 4-H group all my animals on my farm and how I feed them. I even got to show them the homemade soap my dad and I make from our pig's lard and natural scents. I did the shooting sports competition and I did really good at the archery. I also showed swine and sheep at the fair and got a best in class trophy for my whether. I entered many art projects in the fair. My entries were homemade soap from our pig's lard, an angry bird's clock, my Eighth grade rec. mural, my animal cell model, my atom model, and my Plattville engineering, technology, math, and science poster. 4-H was very fun this year.
