

Wisconsin Farm Drainage Installation and Repair Contractor Directory 2025

The goal of this list of agricultural drainage tile installers and repairers serving Wisconsin is to provide rural landowners and farmers with a complete listing of firms, basic contact information, equipment, and area served. The listing of a firm (or lack thereof) does not constitute an endorsement (or lack thereof) by the University of Wisconsin-Madison, Division of Extension and we do not guarantee the accuracy of any information herein. If you wish to have your firm added to the list or to correct an error, please contact Kevin Erb at 920.391.4652 or email Kevin.Erb@wisc.edu. We anticipate releasing an updated list once or twice per calendar year

Firms have a wide variety of equipment – we have standardized/grouped the equipment types to make it easier for comparing the services offered. If equipment is listed as “available”, the owner has access via a partnership with another firm. An * denotes that updated information for the current year was not available, but we believe the firm is still in business. This list is intended for private farmer use and is not for solicitation purposes. Final update 11/18/2025.
